Water is Life!

Water is the most important component of our diet. It’s essential for a healthy way of living. Especially during sports, drinking is a crucial necessity. The demand of drinking water per head has grown enormously throughout the past decades. More and more people get the fact straight, that water is the best and healthiest drink for them. Meet your members’ demands for top-quality water. It’s being delivered for free to your house. After purifying and eventually refining the water with syrup, your members will appreciate it.

more than 92% price advantage

Purchase - Rent - Leasing: We make it simple for you.

Besides purchasing the entire WELLWA water dispensing system, you may also lease in comfortable instalments (36,48 or 54 months terms).

* delivery price, without deposit
** loss of deposit by breaking or theft
*** calculation based on a water demand of 192 litres; 20% of sparkling water (calculated with 1000 members, Ø 4,8 check-ins per month; 1,2 litres per member and check-in = 5760 litres per month = 192 litres per day)

A calculation that is good for you!

Do you have your monthly purchase costs for bottled water in mind? Think of this number and divide it by 14. That’s how low – carefully estimated – your purchase cost will be, if you switch your beverage supply from old-fashioned bottled water to a WELLWA water dispensing system. You will get a similar price, if you have worked with bottle coolers before.

Do you like the results? Then the following pages will show you how to reach these benefits and moreover satisfy your members.

How WELLWA works

Tap water is one of the premium and best-controlled staple foods existing. Based on the mineral content it is even outclassing many bottled waters. Use this “source” to provide an outstanding, healthy and multisided beverage offer for your members and, moreover, save a lot of money. Besides a top-quality supply of beverages, a WELLWA water dispensing system comes along with a lot of advantages:

- 💧 tap water is available 24 hours a day, 365 days a year – you are in control of a never ending source
- 💧 no transportation, no empties, no deposit
- 💧 the water is being prepared freshly at any time
- 💧 different sparkling degrees
- 💧 mix and concentration of syrup adjustable
- 💧 suitable for self-service
- 💧 quick amortisation
- 💧 more variety, less storing!

No matter if you only use the water dispensing system or the postmix system, you are definitely making a step forward: less costs and happy members at the same time!

WELLWA water systems

Freshly refined water, with or without sparkling, cooled or uncooled: The WELLWA dispensing tower turns into your source of profit right after purchase. Simply compare your price for tap water and bottled water. Your savings reach incredible 98%! In addition, your staff will be glad: no transportation, no refilling, no cleaning. And of course your members will be pleased to get their drinks fast, maybe also with a complete self-service-system.

WELLWA postmix systems

Diversity for your customers. 3, 5 or 9 flavours in one system. Choose from a broad variety of syrup and offer your members different flavour experiences. Easy to handle, to refill and to clean, fast exchange of concentrates and labels, adjustable mixtures, usable for self-service: WELLWA postmix systems not only decrease your work and lower your costs, also your members will appreciate WELLWA, because they receive top-quality drinks fast and easily.

combinable in one system

WELLWA fits to you

The appearance affects us. That’s why the WELLWA water dispensing system conforms itself to your surroundings. Choose, for example, out of 100 different decors for the cabinets. Socle and countertop are made of robust hygienic stainless steel.

more than 100 decors available!

Hygiene complying with DIN-Norm

Hygiene is a duty! Therefor we offer you a cleaning and maintenance service for your WELLWA water dispensing system twice a year.

Handling payoff easily

In order to make work easier for you, WELLWA water dispensing systems are professionals in the field of data acquisition. They communicate with any software and work with transponders (RFID), magnetic cards or fingerprints problem-free. Therefore, your dispensing system is being well protected against abuse, plus, it helps to administer payoffs and statistics.

easy payoff!

Did you notice?

Usually entrepreneurs have the choice to either save money or provide top-quality to their customers. Along with WELLWA water systems a rare case appears: **besides premium products, they lower your purchase costs enormously.**

So double your benefit! What are you waiting for? If you turn the page now, you will find contact details to your “WELLWA source of success”.
